

EVOSOL GS SERIES INKS FOR EPSON™

PRODUCT OVERVIEW

Digital Inks EVOSOL GS Series are designed to offer a true alternative for digital printers with no compromise in colour, print performance, adhesion and abrasion resistance to that of the OEM product. These inks give the printer the ability to print photo-realistic images onto a wide range of uncoated materials that don't rub off or require protective coating. A wide gamut and strong individual colour density coupled with a colour brilliance that must be seen to be believed. Furthermore, as a manufacturer we do offer our clients the option to customize these inks further to achieve specific colours or print performance properties and allow you to gain a true competitive edge over your competition. Just contact a member of our sales team and they can talk you through your request in greater detail.

COMPATIBLE PRINTERS

Epson™

All Epson GS and SC printers running Eco solvent ink

MAXIMUM RELIABILITY

Extensive testing is carried out on all inks during both development and production phases ensuring that all our inks are up to the most demanding of print jobs.

- Full hardware and UV fade resistance warranties.
- Extended shelf-life of 18 months.
- Manufactured to strict ISO9001 quality standards.
- Suitable for high speed printing.

MAXIMUM DURABILITY

The finest raw materials, modern production techniques and a commitment to quality enable Digital Ink to produce and supply inks that will inspire confidence in you and your customers.

- Excellent resistance to alcohols and cleaning fluids.
- UV Light resistant up to 2 years outdoors unlaminated. **
- Superior abrasion and scratch resistance. Wide colour gamut and density

MAXIMUM COMPATIBILITY

Designed and engineered specifically for each printer model and finely tuned for superior machine performance and reliability.

- Compatible with the majority of standard printing substrates.
- Quick, simple and trouble-free ink change-over procedure.
- Classified as non-hazardous. No Harmful VOC Emissions. Colour Matched.
