

INDUSTRIAL CODING AND MARKING INK & FLUIDS

PRODUCT OVERVIEW

Digital Ink manufactures a high quality yet competitively priced range of inks and fluids for industrial coding and marking applications. This range is manufactured using the highest quality raw materials in the market place and are thoroughly tested in our internal laboratory to ensure all products are manufactured to the same consistent quality and subsequently meet the demands of the relevant print application. Digital Inks coding and marking fluids are designed to meet and where possible exceed the performance levels achieved with the OEM product. We supply solvent and water based CIJ and DOD inks and associated fluids for use on a wide variety of printer manufacturers. Furthermore, we are also able to offer tailored ink solutions to meet specific print applications or environmental demands.

COMPATIBLE PRINTERS

Willett™
Videojet™
Linx™
Imaje™
Domino™
Citronix™
Leibinger™
EBS™ plus many more

MAXIMUM RELIABILITY

Extensive testing is carried out on all inks during both development and production phases ensuring that all our inks are up to the most demanding of print jobs.

- Full ink stream warranty in place
- Manufactured to strict
- ISO9001 quality standards.
- Suitable for high speed printing.

MAXIMUM DURABILITY

The finest raw materials, modern production techniques and a commitment to quality enable Digital Ink to produce and supply inks that will inspire confidence in you and your customers.

- Superior abrasion and scratch resistance.

Application specific print performance guaranteed.

MAXIMUM COMPATIBILITY

Designed and engineered specifically for each printer model and finely tuned for superior machine performance and reliability.

- Compatible with all standard printing substrates.

- All products are compatible with the OEM ink and most major alternative manufacturers ensuring a clean and straightforward change over.
